Internship Report Guideline

1) General format

- a) Page Setup
 - Page size: A4
 - Font: Times New Roman
 - Line spacing: 1.5 for the content
 - Alignment: Justify the text
 - Page number: Font is Times New Roman, Size 10, and Position is Bottom center.
 - Indentation: The first line of each paragraph must be indented by 1 inch or 1 tab.
- b) Sub-list Handling
 - Avoid splitting sub-lists across pages. If necessary, move the entire sub-list to the next page for better readability.

2) Images, Figures, and Tables

- a) Clarity
 - All images, figures, and tables should be clear and easy to read.
 - Use high-resolution images to ensure visibility.
- b) Captions
 - Include captions for all images, figures, and tables to explain their purpose.
 - Captions also help generate a list of figures, images, and tables in the report.

3) From “Introduction Section”

- a) Headings
 - Use uppercase for main headings (e.g., I. INTRODUCTION).
 - Each new Roman numeral heading (I, II, III) must start on a new page.
- b) Formatting
 - Margins: Normal (Top: 2.54 cm; Bottom: 2.54 cm; Left: 2.54 cm; Right: 2.54 cm).
 - Line spacing: 1.5 (beginning from the Introduction).
 - Do not add space before and after Paragraph.
- c) Heading Sizes
 - Heading 1: Font size 16 (e.g., I. INTRODUCTION).
 - Heading 2: Font size 14 (e.g., 1.1. Presentation of Internship, 1.1.1. Objective of Internship).
- d) Content Placement
 - Ensure the content starts directly below the headings. Avoid leaving large blank spaces.

I. INTRODUCTION
Lorem ipsum...
1.1. Presentation of Internship
Lorem ipsum...
1.1.1. Objective of Internship
Lorem ipsum...
a. Project I
Lorem ipsum...
b. Project II
- Lorem ipsum...
- Lorem ipsum...

4) Warnings

- a) AI-Generated Content
 - Avoid using AI tools (e.g., ChatGPT) to generate text for the report. Such content may lead to plagiarism, which violates academic integrity.
 - Always ensure the work is original and properly referenced.
- b) Consistency and Professionalism
 - Maintain consistent formatting throughout the report.
 - Proper formatting and clear writing enhance readability and reflect professionalism.

#### How to Put Your **Figure** and **Table** Correctly?

##### 1. Where should the caption be?

- Place captions in the middle: below for Figures, above for Tables. *(check out the sample)*
- Use Times New Roman, Italic, font size 9.

##### 2. What about the font color?

- The font color can be freestyle, but both figure and table captions must use the same color.

##### 3. How big should the figure or table be?

- Ensure they fit within the margin and do not exceed the set boundaries.

##### 4. How long should the caption be?

- Keep it short, clear, and informative.

##### 5. How to ensure clarity and quality?

- Use high-resolution images for figures ( $\geq 300$  dpi).
- Ensure tables have clear, readable text and proper formatting.

##### 7. What is the correct format?

- For figures: Figure X: [Your Caption].
- For tables: Table X: [Your Caption].

##### ✶ Important: How to cite the table and figure?

- In the main text: “In **Table 1**, we show the tabular data. **Figure 1** shows the image of the project planning.”
- Bold the **Figure X** and **Table X** when you do citation.

### III. LITERATURE REVIEW

<< Start your text >>

#### **Notes:**

- **Citing sources properly is essential to avoiding plagiarism in your writing.**
- Describe the existing system or research paper.
- What is the unique point of the system or research?
- How can you improve the existing research or system?
  - o (Example: Can be existing apps, websites, software, or technologies reviews, previous work reviews)
- **You can adjust the content as needed, but consult with your advisor and supervisor before making changes.**

## IV. PROJECT ANALYSIS AND CONCEPTS

<< Start your text >>

### Notes:

- In this section, you need to give details about the main functionalities/features of the project to fulfill your objective or to solve those problems.
- To determine the functions of the project you need to do the case study of requirements based on the Problems and Objectives.
- **You can adjust the content as needed, but consult with your advisor and supervisor before making changes.**

## V. DETAIL CONCEPT

<< Start your text >>

### **Notes:**

- Describe in detail(s) about the technology which is used in your project. It should be detailed about:
  - o What is that?
  - o How does it work? (Process)
  - o The architecture of that technology.
  - o The essential points of the technology which made you choose this technology to implement in the project.
- **You can adjust the content as needed, but consult with your advisor and supervisor before making changes.**

## VI. IMPLEMENTATION

<< Start your text >>

### **Note:**

- You can adjust the content as needed, but consult with your advisor and supervisor before making changes.

## VII. CONCLUSION
